

# Executive Cyber Risk Advisory

Bridging the Gap Between Security and the Boardroom

## KEY BENEFITS

- **Clear Visibility:** Transform technical security data into actionable business intelligence
- **Strategic Alignment:** Ensure security investments support business objectives
- **Regulatory Confidence:** Navigate compliance requirements with expert guidance
- **Crisis Preparedness:** Develop board-level incident response capabilities
- **Competitive Advantage:** Turn security into a business enabler rather than just a cost center

## Service Overview

Intruent's Executive Cyber Risk Advisory service translates complex cybersecurity metrics into business language that executives and board members can understand and act upon. Drawing on 25+ years of advanced threat response experience, we provide strategic guidance that enables leadership teams to make informed decisions about cyber risk.

## Service Components

Our comprehensive approach, combines, powerful, visualization, tools, strategic reporting, and expert guidance to transform how your leadership team understands, and manages cyber risk. Each service component is designed to complement your existing security program while elevating cyber security discussions to the business level where critical decisions are made.
