

INTRUVENT
Technologies

Services Overview

The Challenge

Cyber threats evolve faster than traditional security approaches can adapt. Organizations face sophisticated adversaries who exploit the gap between threat emergence and defensive response. Without expert-level threat intelligence and proven incident response capabilities, companies remain vulnerable to intrusions.

The Solution

Intruvent Technologies transforms complex cybersecurity challenges into manageable business solutions. **We deliver premier tech-enabled cybersecurity services by utilizing our proprietary BRACE threat intelligence platform and NOVA AI engine.** Each service is customized to meet your goals.

Reactive Services

Incident Response

Rapid containment and investigation using proven methodologies.

Compromise Assessment

Think you might be breached? We offer comprehensive evaluation and impact analysis.

Post-Incident Assessment

After the breach: We help ensure that you are doing the right things to make sure it doesn't happen again.

Proactive Services

Modular IR Plans

Role-specific incident plans that your teams can use to respond faster

Executive Cyber Advisory/vCISO

Board-ready threat intelligence and strategic guidance. Customized for your business.

Post-Quantum Cryptography

Are you ready for the Post-Quantum future? We help you future-proof through our PQC readiness assessment.
